

### **Kelley Fox Wines Grüner Veltliner 2025**

The Grüner is always a fun wine to produce, and I'm happy every year that I can offer this bottling to you. To keep its super fresh character, this wine completed both primary and ML in tank, and it remained in tank until bottling. The brilliantly transparent 2025 is a rich, spun gold. The nose is super fresh and enticing with plenty of fruit reminiscent of creamy pear and key lime with exotic spices. These fruits and spices are carried in the palate along with delicious melon notes and a spicy finish, with the richness balanced by the refreshing acidity. Drinking this Grüner reminds me of the best part of summer.
